

OpenHarvest — Research Sources & References

Compiled March 2026 from research into open-source farming platforms, AI gardening tools, and the history of OpenFarm and FarmBot.

FarmBot (Open-Source CNC Farming Robot)

- **FarmBot Official Site** — <https://farm.bot/>
 - **FarmBot Open Source Page** — <https://farm.bot/pages/open-source>
 - **FarmBot Genesis Hardware** — <https://farm.bot/pages/genesis>
 - **FarmBot GitHub Organization** — <https://github.com/farmbot>
 - **FarmBot Wikipedia** — <https://en.wikipedia.org/wiki/FarmBot>

- **OpenFarm Kickstarter Coverage (Open Electronics)** — <https://www.open-electronics.org/learn-to-grow-anything-with-openfarm/>
- **Growstuff — Farewell to OpenFarm Post** — <https://www.growstuff.org/posts/clockwerx-20250831-new-features-and-farewell-to-openfarm>
- **OpenFarm Open Crop Icons (GitHub)** — <https://github.com/openfarmcc/open-crop-icons>

Key Facts

- Operated 2014–2025 (10+ years)
- Built with Ruby on Rails, MongoDB, Elasticsearch
- Data licensed CC0 (Public Domain) — legally reusable
- Last meaningful code release: May 2019
- Servers shut down: April 22, 2025
- Repository archived on GitHub (read-only)

Open-Source Agriculture Resources

- **Awesome Agriculture (GitHub curated list)** — <https://github.com/brycejohnston/awesome-agriculture>
 - Includes links to: FarmBot-ROS, Fields2Cover, Field Friend, AgOpenGPS, LiteFarm, Tania, GrowGood, and many more open-source agriculture projects

Notable Projects from Awesome Agriculture

- **LiteFarm** — Community-led, not-for-profit farm management system
 - **Tania** — Free and open-source farming management (Go + Vue.js)
 - **GrowGood** — Open-source farm management using ValueFlows/JSON-LD
 - **Plant-it (GitHub)** — <https://github.com/MDeLuise/plant-it> — Open-source Android gardening companion app (note: reached stable maturity, active dev slowed)
-

AI Gardening & Design Tools (Commercial/Paid)

- **Gardenly** — <https://gardenly.app/> — AI-powered garden design (\$4.50–\$7/month)
- **Gardenly Blog: Garden Design Apps Ranked 2025** — <https://gardenly.app/blog/garden-design-apps-ranked>
- **Ogrovision (AI Garden Design)** — <https://aigarden.design/>
- **MyGardenGPT** — <https://mygardengpt.com/>
- **Neighborbrite** — <https://neighborbrite.com/>
- **OpenArt AI Garden Generator** — <https://openart.ai/generator/garden>
- **VisualGPT Garden Design Generator** — <https://visualgpt.io/garden-design>
- **VegPlotter (Digital Garden Planner)** — <https://www.vegplotter.com/>
- **Top 10 Gardening Apps 2025 (DevOpsSchool)** — <https://www.devopsschool.com/blog/top-10-gardening-apps-in-2025-features-pros-cons-comparison/>

Key Observation

Most existing AI gardening tools focus on visual/aesthetic garden design or houseplant identification — not food production guidance. None are open-source. None combine AI Q&A, planting calendars, plant diagnosis, and community food sharing in a free platform.

Data Licensing Notes

- **OpenFarm crop data:** Licensed CC0 (Public Domain) — can be freely used, modified, and redistributed for any purpose, including as seed data for OpenHarvest
 - **OpenFarm crop icons:** Available at <https://github.com/openfarmcc/open-crop-icons> — openly licensed icon set of commonly cultivated crops
 - **FarmBot:** Hardware designs are Open Source Hardware; software is MIT licensed
-

Potential Grant & Funding Sources (for future phases)

- USDA Community Food Projects Competitive Grants
 - Rockefeller Foundation (Food Initiative)
 - UN Food and Agriculture Organization (FAO)
 - Shuttleworth Foundation (funded FarmBot's early development)
 - Mozilla Foundation (open-source technology grants)
 - Schmidt Futures
 - 1% for the Planet member organizations
